The strike in the Globe Consolidated adds another big mine to the Globe district.

And while Globe is satisfied with small favors, she is still insisting on having more street lights.

Mr. Taft evidently feels that he may leave his boom with the assurance that it will stand hitched for a few weeks anyhow.

At all events, it is probable Senator Bailey will believe it the next time he sees a sign reading: "Thin ice here; skating dangerous."

Judge Nave is playing no favorites. He has the majority candidates of both the republican and democratic parties doing jury duty.

Prof. Percival Lowell says "the earth is drying up, but irrigation can stop it." Sure; that's what the anti-prohibitionists contend!

It is figured that the house of representatives costs us \$150 a minute. This shows what an expensive luxury "Uncle Joe" Cannon is!

And to think we used to grumble about "billion-dollar" congresses a few years back. What a lot of "tightwads" we were in those silly old days!

"And now the 'Merry Widow' bug has been discovered," says the Baltimore American. As a matter of fact, the entire country seems to have the Merry Widow "bug."

"Where are the defenders of truth?" demands the Hon. "Jeff" Davis. Some one should tell the senator; perhaps it has dawned on him that he needs a little advice from them.

"Boubo City, Ill., a village of 300 inhabitants, has twenty-three saloons," says the New York mail. Evidently, the average Boubo City thirst makes the Milwaukee article look like thirty cents.

The kaiser appears to be something of a highly decorated bull in the diplomatic china shop. The Tweedmouth incident the Hill incident and the Norwegian minister incident, all in a bunch!

As strenuous as Mr. Roosevelt has been in the past few years, it is as nothing to what he will have to be if he does everything he is credited with an intention to do immediately after he retires from the presidency.

In another respect, recent evidence seems to prove our war ships' superiority over those of the Japanese. While ours were blown up in a monthly magazine, one of the Japs' was blown up by its powder magazine.

A physician says "ice is a perfect germicide." Doctors should be careful about making unguarded remarks at the opening of the ice season, especially such remarks as are likely to furnish an excuse for shoving up the price.

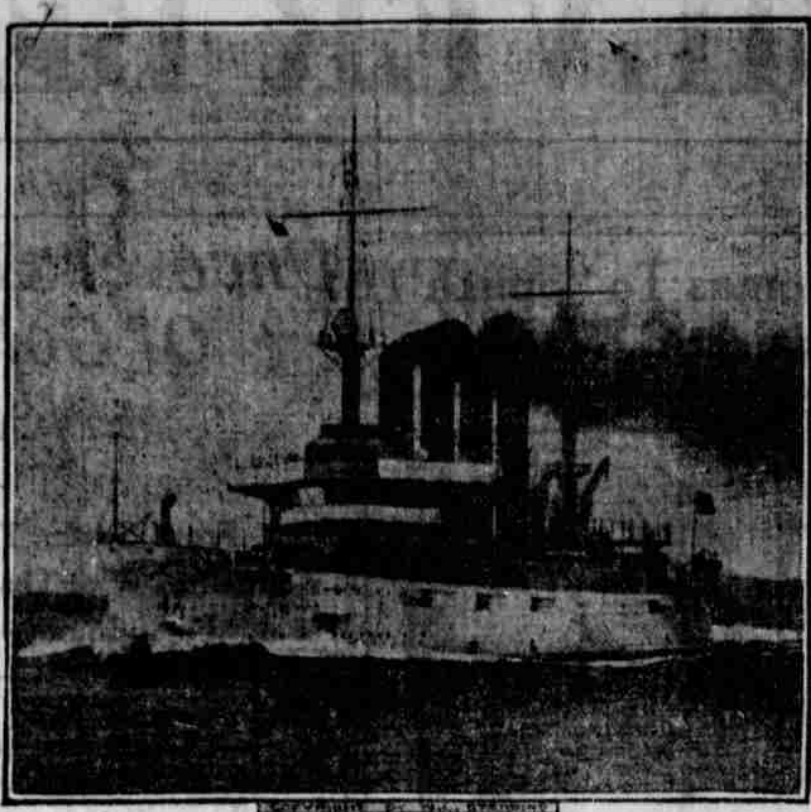

"It is reported that a considerable part of Europe thinks the United States needs padding," says a territorial paper. We judge from this that the jingoes are now about to "sick" all Europe on us!

If there is any political strife it is confined to the bosoms of the respective candidates. No excitement in the voting columns. And that is just as it should be. The voters will pick out their hired men on May 28.

We recently made note of the fact that Miss Maczschewski of Chicago wanted to change her name. She has done so; but as her purpose was accomplished by marrying a gentleman from Borchenscavic, we can't see where she wins.

Respectable families wishing to lose an undesirable relative may have him placed in the Tomb," says the New York Post. And, if it is all the same with the family, kindly have him placed there before he shoots somebody full of holes.

"Pictures of Napoleon generally show him with a frown on his face, but no historian has ever found any evidence to indicate that his frown was what made him great," says the Chicago Rec.

THE FASTEST AMERICAN CRUISER.

At her recent trial cruise off the Virginia capes the new armored cruiser North Carolina made a new speed record for armored vessels of the American navy, her time being 22.48 knots an hour. This swift and powerful monster is of the latest design in naval architecture and is capable of destroying all the commerce of the Atlantic ocean if war prevailed and such a thing were necessary. The North Carolina cost \$4,400,000. She is 502 feet long and has four ten-inch breechloading rifles, sixteen six-inch rapid fire guns and a secondary battery of forty-six pieces.

ord-Herald. Still, it may have helped; a frowning attitude impresses some people wonderfully.

In the Silver Belt of tomorrow a full list of all warrants issued by the city during the past year will be published. It will show the taxpayers for what purpose every dollar has been expended during the past twelve months. This action is taken in accordance with a law requiring similar publications by the respective counties and territories and is an expose which the people have a perfect right to view. The showing will not be a bad advertisement for the city and will not cast discredit on the city officials.

SENDS OUT TELEGRAM TO ANNOUNCE SUICIDE

The pathetic story of how a telegraph operator for the Cananea, Yaqui River & Pacific ticked the warning of his own death to the train despatcher comes from San Blas, state of Sinaloa, Mexico.

"The next train that passes will find me," is the message which the train despatcher heard come ticking over the train wire from A. G. Luckett, a hermit operator, isolated at the lonely little station of Naranjo. The despatcher feared that Luckett intended to commit suicide, as he knew that the operator was suffering from melancholy because he believed he was stricken with an incurable disease, hence he hastened to wire back cheering words of encouragement.

But all the persuasive clicking back and forth and words of encouragement from the wire chief proved of no avail, and with a final message of "It's no use, I'm all in; good-bye," the despatcher operator closed his key and "cut out" forever. Then he picked up a Winchester rifle and sent a bullet through his brain. And the next train that passed found him dead.

Luckett was a Spanish war veteran and had served in the Philippines. He was about thirty-five years of age.

HEARING OF BRIBERY DEFENDANTS CONTINUED

PRESCOTT, May 12.—There were no developments of any moment today in the alleged bribery cases. The attorneys for the respective defendants appeared in court at the proper time, and their request that the cases should go over was granted.

One of the incidents of the day was the number of prominent citizens who called upon Mr. Norris and strongly expressed their belief in his innocence, his friends being joined even by men who have fought him politically for years, and who likewise tendered him any assistance in the power. This unexpected exhibition of good will and confidence, it is said, touched Mr. Norris deeply and while his attorneys have assured him of his ultimate vindication, yet the fact of having both his friends and his political opponents rally around him, was more gratifying than any hope held out to him that his name would be cleared.

The attorneys for both defendants are confident that they can knock out the indictments, claiming them to be defective. They will appear in court fortified with authorities to prove their contention and should the court declare the indictments defective, the case will have to go before another grand jury.

BATH HOUSE

For first-class baths and shoe shines see Blackburn at the Newport Barber shop.

Mr. John Riha of Vining, Ia., says: "I have been selling DeWitt's Kidney and Bladder Pills for about a year and they give better satisfaction than any pill I ever sold. There are a dozen people here who have used them and they give perfect satisfaction in every case. I have used them myself with fine results." Sold by Hanna's drug store, 228 Broad street.

Biliousness and Constipation.
For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Peppin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Stomach and Liver Tablets. The tablets relieve the ill feeling at once, strengthen the digestive functions, purify the stomach, liver and blood, helping the system to do its work naturally.—Mrs. Rosa Potts, Birmingham, Ala. These tablets are for sale by all druggists.

Margeroun soda water, 567 N. Broad.

OIL IN PIE NEARLY FATAL

Arrests Threatened, Following Experience of Men Who Ate.
MANITOWOC, Wis., May 12.—Croton oil, placed in pie which they had for lunch, came near proving fatal for three employees of the Goodrich Transit company, and one, William Schroeder, foreman carpenter, is not out of danger. Schroeder, Alfred Cozay, electrician, and Ira Smith, foreman painter, were the men who suffered from the oil and the three were worked over by physicians for hours.

Arrests are threatened, it being said that the oil was placed in the pie as a joke.

Go to the Indian Hot Springs. If sick, get well. If well, get rest and pleasure.

Thirteen pounds of granulated sugar \$1, at Gamble's Cash Store.

Shoes repaired while you wait. 570 Broad.

When you think of indigestion think of Kodol, for it is without doubt the only preparation that completely digests all classes of food. And that is what you need when you have indigestion or stomach trouble—something that will get right at the trouble and do the very work itself for the stomach by digesting the food that you eat and that is Kodol. It is pleasant to take. It is sold by Hanna's drug store, 228 Broad street.

COFFEE

Why do we drink so much poor coffee?
Because good coffee is so good.

Your grocer returns your money if you don't like Schilling's Best; we pay him.
